Web Development Class Project
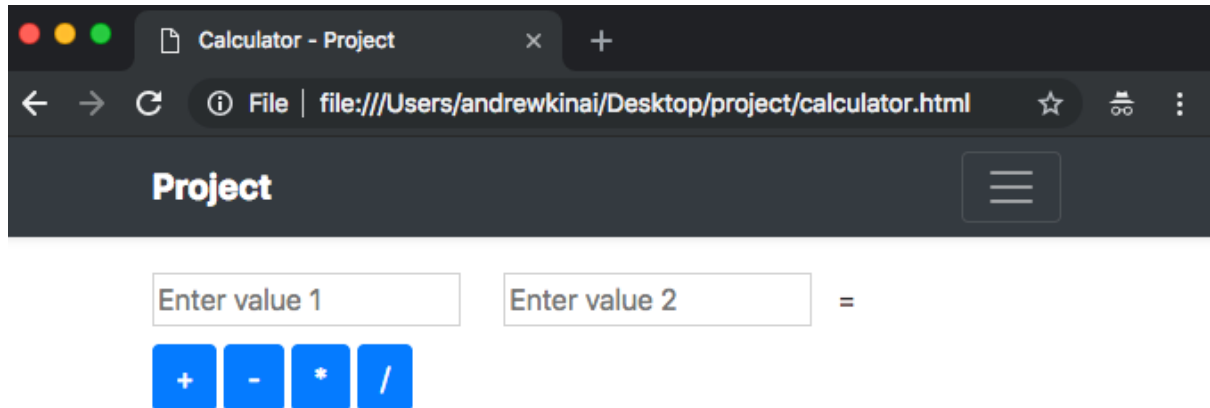

Instructions

Download the project files from http://bit.ly/cuea-web-dev
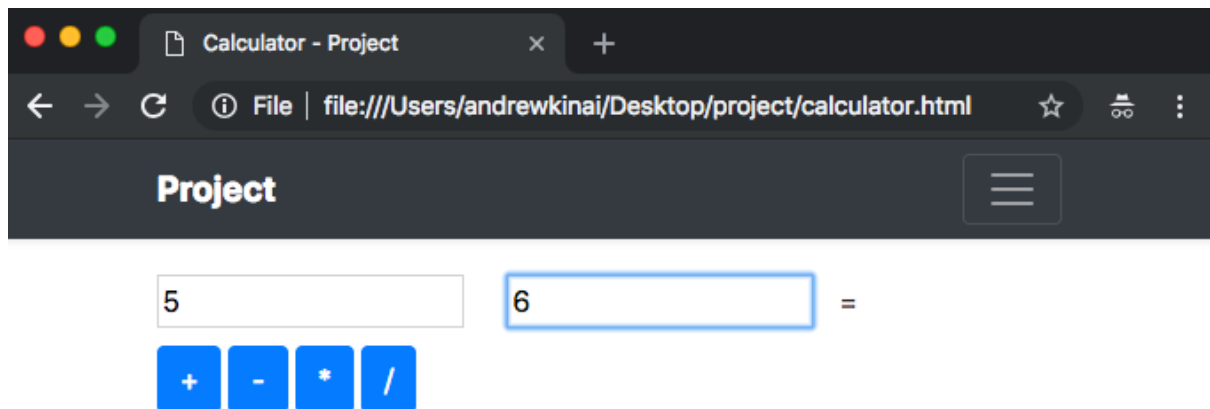

Zip the folder of the project once done and send it to andkinai@ke.ibm.com
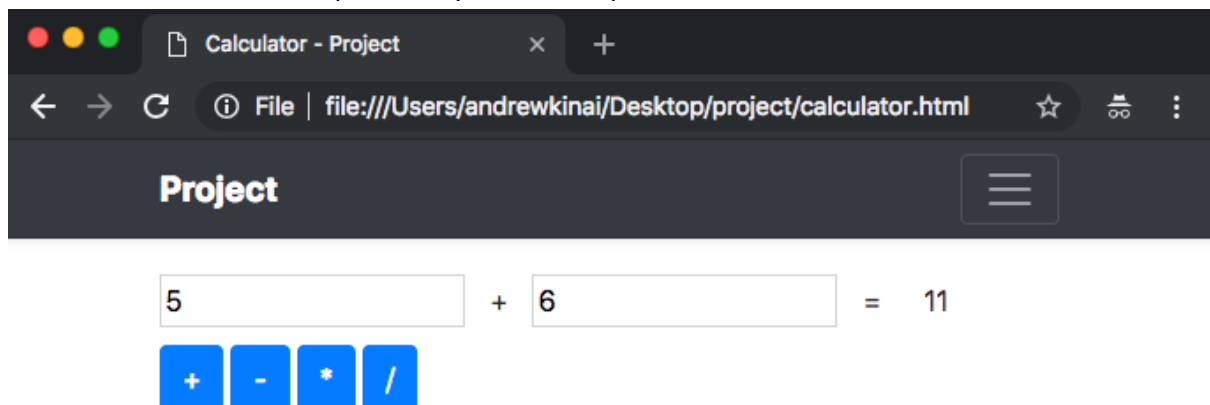

Task 1

Complete the calculator application to work as shown in the screenshots below.

Enter the value 1 and value 2 in their respective text input fields.

Click the button for the operation you wish to perform.

Show the operation that was performed between the two text fields and the result of the operation after the equals sign.

Task 2

Update the about section by changing the content of the about section adding some information about yourself like your interests.

Change the image in the photo section to an image of an animal you like.
